Dear Practitioners:

I am honored to offer congratulations to the Shen Yun Performing Arts program as you celebrate twenty years of global service. I truly regret that Congressional business prevents me from being able to attend a performance during your visit to the Third Congressional District of Virginia.

In the past two decades, your performing arts group has made a positive impact around the world. Your ability to produce shows that embrace universal virtues of truthfulness, compassion, tolerance, and hope resonate with people of all backgrounds. Your previous performances in the City of Norfolk have captivated Hampton Roads residents. I have no doubt that your upcoming performances at Chrysler Hall on April 22nd and 23rd will continue that tradition by inspiring and entertaining people of all ages.

Again, congratulations your 20th Anniversary and best wishes for successful performances during your stay in Hampton Roads.

Very Truly Yours,
